EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Andrew Babcock on 2/17/05.

The application has been amended as follows:

Claim 12, line 3, -- or engagement end -- have been inserted after "interface"; line 8, "couple to" have been changed to -- integral with an internal diameter surface of --; line 9, "couple to" have been changed to -- integral with an outer diameter surface of --.

Claim 15, line 2, "is" has been changed to -- has --.

Claims 1-11 and 19-30 have been canceled.

The following is an examiner's statement of reasons for allowance:

Claims 12-18 are allowable over the prior art of record for at least the reason that the prior art fails to teach or suggest a first interlock surface integral with an internal diameter of the coupling nut and a second interlock surface integral with an outer diameter of the inner coupling sleeve each of them having a plurality of complementary protrusions for interacting to each other, and wherein at least one of the complementary protrusions deflecting upon application of the torque at or above the threshold level to decouple the connector body from the inner coupling sleeve as set forth in the claimed combination.

Art Unit: 2833

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
